SERVING THE TRADE FOR MORE THAN **30** YEARS

... TO CREATE GREATER SALES

Great Neck quality tools and counter displays have been serving jobbers and dealers faithfully for more than thirty years.

During this thirty year period many new lines have been added, produced by the latest precision equipment and heat treated by modern methods. We want to acquaint our new customers with our growing line of tools; and thank our old customers for their loyal support.

It is our aim to extend and improve our line in the years to come, to continue the high standards of workmanship and materials maintained in the accurate construction and manufacture of our tools.

GUARANTEE: Every Great Neck product is fully guaranteed against defects in material and workmanship. Great Neck tools will be replaced by the factory if they fail to give the service customers have the right to expect. Replacements are subject to the judgment and decision of the company.

SHIPPING: All tools are F. O. B. Mineola, New York.

GREAT NECK

SAW MANUFACTURERS, INC.
ROSE TOOLS, INC.
MINEOLA, NEW YORK

Superior work aids for the woodworkers, Great Neck planes are outstanding products. Flawless workmanship and quality materials used in the construction of every tool are enhanced by the special handsome Great Neck finishes. Cutters are made from high quality durable special chrome alloy tool steel. All parts are polished and plated, and hardwood handles and knobs are highly finished.

GM-O MODEL MAKERS PLANE

Miniature plane for model makers, cabinet makers, and for other detailing of fine wood-working. Alloy tool steel cutter is end-adjustable with nickel plated adjusting screw.

GM-O

G-1 BLOCK PLANE

Adjustable mouth, with end and side screw adjustment. Allows rapid, exact regulation from coarse to fine work. Bottom and sides are smoothly milled and polished. Japan finish. Brass adjusting wheel.

G-1

G-2 BLOCK PLANE

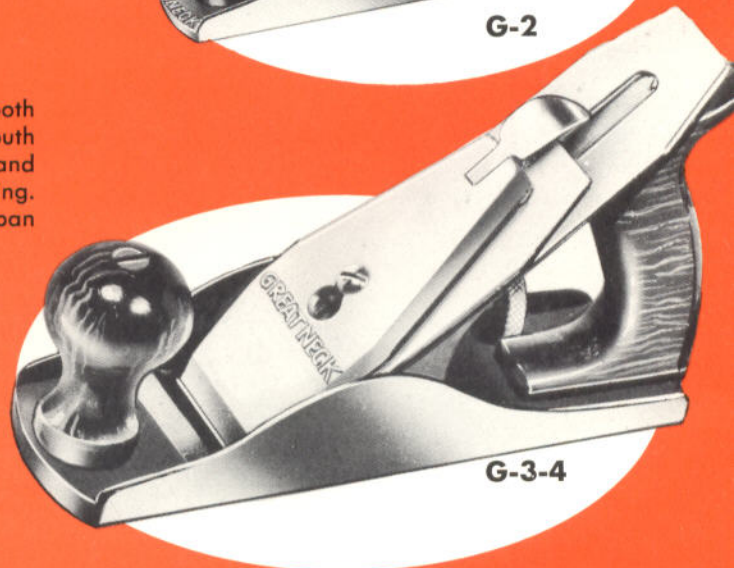

Popular type plane for everyday work not requiring frequent adjustment. Steel screw makes cutter adjustable for thickness of cut. Bottom and sides milled and polished. Japan finish.

G-2

G-3 BENCH PLANE — G-4 BENCH PLANE

Also called smooth planes. Available in 8" and 9" sizes with smooth or corrugated bottoms. Fully adjustable to meet all requirements. Mouth can be widened or closed for coarse to fine work as desired. End and side adjustments of cutters allow for thickness and evenness of planing. Bottom and sides milled and polished. Brass adjusting wheel. Japan finish.

PRECISION WORKMANSHIP IN THE CONSTRUCTION OF GREAT NECK PLANES

CUTTERS:

Each a solid piece of fine chrome alloy steel, fully tempered, ground and honed to a quality finish. Special design eliminates chatter, gives a constant cut.

FROG:

Sturdily constructed to provide firm support at rear of mouth, making each tool a tight, vibration-proof unit. Adjustable for width of mouth.

ADJUSTMENTS:

Made to the finest specifications in tool technology, permitting reliable precision settings in a few seconds.

LEVER CAP:

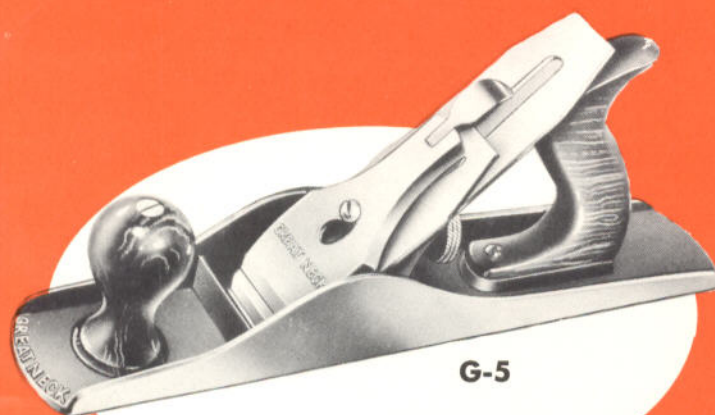

Lustrously chrome plated. Designed to hold the cutter securely to prevent chatter.

KNOBS AND HANDLES:

Made of specially treated hardwoods, with attractive life-time finish. Handles are specially shaped to give an easy natural grip that prevents slipping. Knobs securely fitted into plane bottom, avoiding looseness and splitting.

ASSEMBLY PARTS:

Made of the finest quality carbon steel for maximum work efficiency. Each part is hardened and tempered by the finest tool making equipment for excellent results and long life.

**G-5****G-5 JACK PLANE**

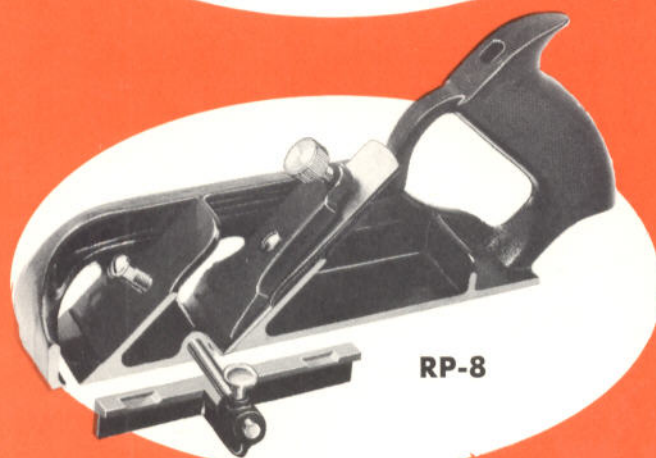

Suitable for the roughest work required, sturdily constructed to do a man-sized job efficiently, quickly. Screw adjustment permits quick regulation to different cuts. Bottom and sides milled and polished. Japan finish. Smooth or corrugated bottoms.

G-6 FORE PLANE

A work-wise plane for finishing uneven surfaces or for dressing edges to a flush fit before joining or glueing. End and side adjustments. Bottom and sides smoothly milled and polished. Japan finish. Smooth or corrugated bottoms.

RP-8 DUPLEX RABBIT PLANE & FILLETSTER

This plane has two seats for the cutter; one for regular work, the other for bullnose work. Adjustable fence can be used on either side of the plane and slides under the bottom for regulating width of cut. Depth gauge regulates depth of cut. For use with or across grain. Bottom and edges are milled and ground smooth. Body is japanned black, and all parts are rustproof plated. Blade is of special chrome alloy tool steel. Handle is cast with body in one piece.

SAW MANUFACTURERS, INC.

ROSE TOOLS, INC.

MINEOLA, NEW YORK

C-0 BLOCK PLANE C-1 BLOCK PLANE

A small bodied, compact plane which does not require frequent adjustment. Especially handy for light work. Alloy tool steel cutter is hardened and tempered, ground to a razor-sharp edge. Bottom is smoothly milled and polished. Baked black japan finish.

C-2 BLOCK PLANE

A popular block plane for easy control with one hand does not require frequent adjustment. Alloy tool steel cutter is hardened and tempered, ground to a razor-sharp edge. Both bottom and sides are smoothly milled and polished. Baked black japan finish.

W-4 FOUR-WAY 9" SMOOTH PLANE WITH LONG-SERVICE FOUR-EDGE DISPOSABLE BLADE

Newest sensation from Great Neck Tools—the Four-Way plane with "metal-magic" four-edge disposable blade! Utilizing latest revolutionary metallurgical techniques, this ultra-sharp hardened steel blade has four long-service cutting edges—no need to ever attempt to sharpen a blade again—when cutting edges wear dull, just throw away blade and replace! Extra light in weight, because of fewer parts, the W-4 plane is not fatiguing to use. Sturdy cast-iron body is precision milled and polished on sides and bottom, with baked enamel finish on inside surfaces. Cap is bright nickel plated. Lock screw and adjusting nut are solid brass. Handles are mahogany-colored kiln-dried hardwood.

C-3 SMOOTH PLANE

C-4 SMOOTH PLANE C-5 JACK PLANE

Top value planes, Great Neck Corsair C-4 and C-5 have alloy tool steel cutters that are hardened and tempered and ground to a razor-sharp edge. C-4 Smooth Plane and C-5 Jack Plane feature a newly improved lever cap—a radically engineered honeycomb die-casting of rust-proof metal with mirror-bright chrome plated finish—reduces weight and adds longer life. Bottom and sides are smoothly and accurately machined and polished. Frog is adjustable to width of mouth, is rigidly constructed and vibration-proof. Knobs and handles are made of genuine kiln-dried hardwood, attractive mahogany finished. Assembly parts are made of high quality, hardened and tempered alloy tool steel. Brass adjusting screw. These planes are rigid, vibration-free top efficiency tools of superior quality. Special design eliminates chatter, gives a consistent cut.

HATCHETS STEEL CHISELS

HA-4

A-2

BX-2

No. HA-4 HALF HATCHET WITHOUT SHEATH PERFECTLY BALANCED

A sturdy hatchet designed for the rugged jobs, this tool has no equal. Like the hammer and camp axe, it's a beauty of one-piece forged electric heat-treated steel, precision balanced to produce extra power while reducing wrist fatigue. It's the finest tool of its kind. The mirror-polished head has a nail slot and can also be used as a hammer. Shock-absorbing, rubber-cushioned grip is easy on the hand, and it won't slip wet or dry.

Stock No.	Head Weight	Overall Length	Cut	Approx. Wt. per box
HA-4	18 oz.	12¾"	6⅞"	6½ lbs.

Packed 4 hatchets per box. 48 to a master carton.

NO. HA-4S SHEATH — Packed 12 to box.

No. A-2 SPORTSMAN AXE COMES WITH GENUINE LEATHER CAMP AXE SHEATH - PERFECTLY BALANCED

It's the ideal axe to do a man-sized job for the outdoorsman or the homeowner. This dependable tool is hand-forged in one piece of top-quality steel—there's nothing to come apart. Fully polished to a mirror-finish, the head has a nail slot and a razor-sharp thin blade, forged from the finest heat treated hardened steel.

Rubber cushioned handle is permanently fused to the shaft, like the hammer and hatchet, to absorb shock.

Stock No.	Head Weight	Overall Length	Cut	Approx. Wt. per box
A-2	20 oz.	13¼"	5"	6½ lbs.

Packed 4 axes per box. 48 to a master carton.

No. BX-2 BLACK BEAUTY SPORTSMAN'S AXE WITH CAMP AXE SHEATH PERFECTLY BALANCED!

Forged in one piece from electric furnace alloy tool steel, then scientifically hardened and precision tempered! Special rust-resistant "Black Beauty" finish on all exposed metal. Rubber-cushioned shock-absorbing hand grip permanently bonded to the shaft. Tremendous value!

Stock No.	Head Weight	Overall Length	Cut	Approx. Wt. per box
BX-2	20 oz.	13½"	5"	6½ lbs.

Packed 4 in a box, with sheaths; 48 to a master carton.

No. NC-11 NAILCLAW-CROWBAR

A powerful worktool, its compact size makes it easy to carry, easy to use in tight places. Ideal for opening wood cases, crates, lifting shingles off roofs, etc., it's a heavy duty tool that serves many functions: as a wedge, crowbar, nail puller. Made in one piece, of forged, hardened and tempered steel, with a vinyl rubber grip for easier handling. A well-balanced, good-feeling tool, attractively finished in black. Makes an excellent shipping room accessory as well as a versatile tool for the building contractor, journeyman, master mechanic, etc.

Stock No.	Weight Each	Overall Length	Approx. Wt. per box
NC-11	14 oz.	11"	5¼ lbs.

Packed 6 per box. 48 to a master carton.

No. RC-18 RIPPING CHISEL

Forged in one piece from heavy hexagon stock alloy tool steel, hardened and scientifically tempered, this husky ripping chisel is a multi-purpose mechanic's tool. Use as a pry bar, wrecking tool, crate opener, wedge, line-up tool. Dual nail slots are of non-slip design, safer and faster. Hexagon body has handsome, rust-resistant black japan finish. Blade is hand polished to mirror-bright finish.

Stock No.	Overall Length	Blade Width	Body Diam.	Approx. Wt. per box
RC-118	18"	1¾"	¾"	10 lbs.

Packed 6 in a box, 24 in a master carton.

No. RCO-18 RIPPING CHISEL WITH OFFSET CLAW

Heavy hexagon-shaped body and ends forged in one piece from high-tensile alloy tool steel, electrically hardened and tempered, and with offset nail claw in addition to ripping blade, this is a premier quality mechanic's tool. Body has rust-resistant black finish, with mirror polished blade and claw.

Stock No.	Overall Length	Blade Width	Body Diam.	Approx. Wt. per box
RCO-18	18"	1¾"	¾"	10 lbs.

Packed 4 in a box, 24 in a master carton.

NEW!

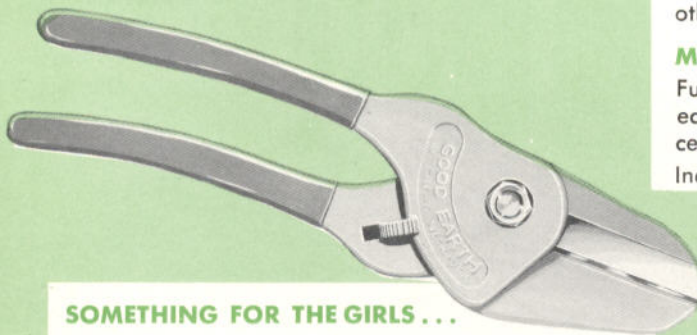

LIGHT TOUCH

ANVIL TYPE PRUNING SHEARS SP-2

A really new heavy duty pruning shears, carefully engineered for easy, multiple-leverage cutting. Precision die-cast of special high-tensile aluminum alloy, the shears are light weight and completely rustproof. The cutting blade is special chrome alloy tool steel, hardened, tempered and sharpened — the fine cutting edge will stay sharp longer than any other now in use!

MAN SIZED, COMFORT GRIP HANDLES

Full-length handles are cushioned with colorful plastic grips. Positive, easy action Thumb Lock built in handle. "Action" hinge-nut with concealed perma-lubricated spring. Built-in anvil. Individually boxed, 48 shears in a shipping unit.

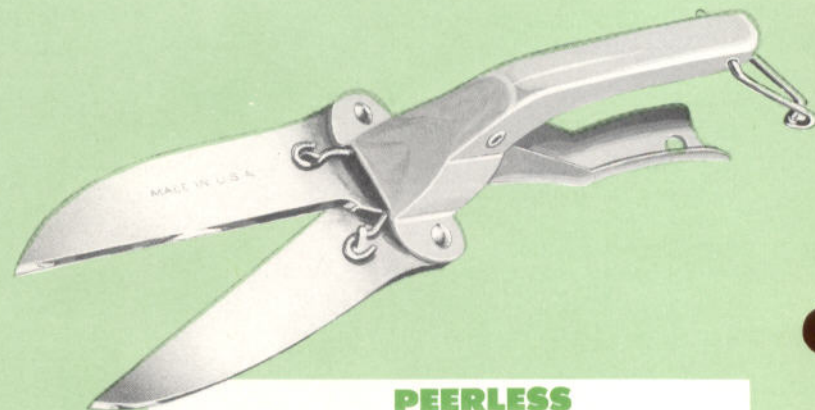

SOMETHING FOR THE GIRLS...

LADIES' SIZE PRUNING SHEARS JP-1

Little sister to the man-sized shears, these are exactly proportioned down to fit milady's hand. Same careful construction, same wonderful heavy duty, easy-touch cutting features for clean-cut pruning. Slimmer nose design makes it ideal for cutting flowers, flower arranging, too! A wonderful gift idea!

Individually boxed, 48 shears in a shipping unit.

PEERLESS

GRASS SHEARS SH-2

A quality grass shear with all the features of higher priced tools! Blades are nicked plated to prevent rusting. Handles are contoured, and give ample knuckle clearance. Closing latch and handy hang-hole in handle. Easy up-and-down cutting action makes these shears a cinch to work.

Individually boxed, 48 in a shipping carton.

DRAMATIC "FEEL THE GOODS" DISPLAY PACK

A length of hardwood dowel is packed in every box to let your customer try the tremendous cutting power of these really new shears.

GREAT NECK CARPENTERS' STEEL SQUARE

Great Neck steel squares help the carpenter determine the length of any Common, Hip, Valley or Rafter. Correct top and bottom cuts plus side or check cuts are easily accomplished for any rafter. Manufactured from special analysis steel, the blades are precision marked with highly accurate graduations.

TWO FOOT SQUARE

Body measures 24" x 2", tongue measures 16" x 1½". The Rafter or Framing Table and Essex Table are on the body of the square; the Brace Table, Octagon Scale and Hundredths Scale are shown on the tongue of the square. Complete instructions for use of the various tables are included with each square.

All are precision graduated with clear markings. "X" series squares are made of special analysis steel.

Stock No.	Finish	Graduations (inches)		Weight Each
		Front	Back

CORSAIR COMBINATION SQUARE

Corsair combination squares can be used as a try square, mitre square, depth or marking gauge, or as a plumb or a level. They are manufactured by the most advanced methods — precision casting, **super-accurate machining**. Beautifully finished, **rust-proofed plated blades** are 12" long and 1" wide and are accurately graduated in 8ths and 16ths on one side, 16ths and 32nds on the other side. The blade is grooved end-to-end so that the handle may be moved and locked at any point by brass adjusting screw with enclosed spring. The **precision-set level vial in the handle** can be used as a level or as a plumb. Hardened steel scriber with brass grip is set in handle.

No. CS-12 COMBINATION SQUARE

Individually boxed, 72 boxes in shipping carton. Shipping weight 50 lbs.

No. CS-12B COMBINATION SQUARE

Attractively show-packaged in poly bags, 50 bags in a shipping carton. Shipping weight 40 lbs.

CORSAIR TRY-MITRE SQUARE

A sturdy, firm tool, attractively constructed for high volume sales. The handle is precision cast and **machined**, then finished in rich, black baked-on enamel. **Precision set level vial is mounted in the handle**. The blade is highly plated and has a convenient hanghole. Three nickel-plated rivets, scientifically placed in handle, make this square one of the most rigid, accurate tools to work with.

No. TS-8 TRY-MITRE SQUARE

Individually packed in colorful boxes, 72 to a shipping carton. Shipping weight 40 lbs.

No. TS-8B TRY-MITRE SQUARE

Individually packed in clear Poly-Pouch Pack, 50 to a shipping carton. Shipping weight 28 lbs.

CORSAIR SLIDING T-BEVEL

Here is a classic tool, favored by the highly skilled cabinet maker, carpenter and home craftsman alike, newly redesigned to incorporate the most modern materials and manufacturing methods. The handle, which is perfectly square in any position, is made of a special unbreakable lustrous black plastic, true and accurately shaped. The blade, 8" long and 1" wide, is polished and plated rustproof. The special single-wing adjusting nut is solid bronze.
